* Readers are cautioned that this assessment is preliminary in nature. It includes Inferred Mineral Resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as Mineral Reserves, and there is no certainty that this preliminary economic assessment will be realized. Life of mine (LOM) cash costs consists of mining costs, processing costs, mine site G&A, refining charges, and royalties. AISC includes cash costs plus sustaining capital, closure cost, and salvage value. See cautionary note on non-IFRS measures. Silver price fixed at US$29.51/oz Ag in both cases.
